

SCREEN TEST

Delayed Clinic Notice

The Screen Test mobile mammography unit will be in BOYLE JUNE 2025

Screen Test will provide a reminder in the mail for patients about six weeks before the mobile returns to the community.

Watch for posters, newspaper ads, and notices in your healthcare provider clinic.

Due to equipment issues on our North mobile unit, Screen Test has been experiencing delays in scheduled community clinics. We apologize for the inconvenience this may cause.

To learn more or find the nearest community radiology clinic, visit screeningforlife.ca or call 1-800-667-0604
